Order Information: 800-327-3339
Fax Number: 410-534-2650
Also, visit the DAP website at www.dap.com.

Product Description:

DAP Finishing Putty is a smooth, pre-mixed, easy-working putty that quickly repairs minor scratches and holes in prefinished interior or exterior surfaces. It is ideal for filling small holes and cracks in interior or exterior surfaces such as baseboards, paneling, woodwork, molding, furniture, cabinets and other wood surfaces that are painted. It resists oil bleeding.

Suggested Uses:

Ideal for quick repairs of minor scratches, gouges, nailholes and other minor imperfections in prefinished interior and exterior surfaces.

Surface Preparation & Application:

- Surface to be filled must be clean and dry.
- Press DAP FINISHING PUTTY firmly into place with a putty knife.
- Avoid excess contact with surrounding area.
- Build fill up slightly higher than surface to allow for settling.
- Most repairs require just one fill. Deep holes may require more than one application.

For Best Results:

- Do not apply DAP FINISHING PUTTY if temperature is below 40°F.
- This product is designed to be applied as a final finish.
- This product is not stainable, sandable or paintable.
