DAP® CrackSHOT® High Performance Spackling Paste

DAP® CrackSHOT® Spackling Paste is a high-performance spackling for filling holes and cracks in surfaces such as drywall, plaster, wood, brick and stone. It can even be used for filling dents in metal doors and trim. Its ready-to-use smooth, white formula spreads easily for fast, professional repairs that will not crack, crumble or flake. It has a de-aired texture for excellent tooling and easy smoothing to a feather edge. CrackSHOT sands effortlessly. It can even be finger sanded — no sandpaper needed when sanding small nail holes or hammer dents in drywall. Just use finger to smooth dried spackling before painting. CrackSHOT provides unsurpassed paintable. It does not flash or gloss low sheen/flat paint. It accepts paint like bare drywall or other porous surfaces and provides a very smooth surface that disappears when painted. CrackSHOT cures quickly but has a long working time and will not gum up on knife.

### Key Features & Benefits

- Knife-grade formula
- Ideal for dents in metal doors & trim
- No shrinking
- Sands effortlessly
- Unsurpassed paintability – won’t flash paint
- Interior/exterior use

### Suggested Uses

Ideal for filling holes, cracks, dents and defects on:

- Drywall/plaster
- Wood
- Brick
- Stone
• Metal doors and trim

FOR BEST RESULTS

• Do not apply when temperatures are below 50°F.
• Do not apply outside if rain is expected within 24 hours.
• Do not use on floors or as a caulk, sealant or joint filler over cracks and joints where expansion and contraction may occur.
• DO NOT USE AS A SKIM COAT.
• For exterior applications, always topcoat with a quality paint prior to water exposure.
• If a textured finish is desired, add clean sand to spackling compound prior to application.
• Do not use for tuck pointing applications on brick.
• For larger areas to be patched on bare concrete, use a latex fortified Portland cement-based dry mix.

APPLICATION

1. Surface must be free of grease, oil and other foreign matter. Sweep or blow surface with compressed air to remove all mud, dirt, dust and other loose debris.
2. Stir thoroughly before use.
3. Apply with a clean putty knife.
4. For a smoother finish, dip putty knife in water and lightly smooth spackling.
5. One application is usually sufficient for small repairs. For repairs deeper than 1/4”, apply two or more layers allowing spackling to dry between applications.
6. May be sanded or painted in 1 to 5 hours depending on temperature, humidity and depth of fill. Wet sanding is recommended to avoid generation of dust. Allow to dry after wet sanding.
7. Clean up with damp sponge before it skins over. Scrape or cut away excess cured.
8. Ensure that CrackSHOT Spackling Paste is thoroughly dry before sanding or applying oil-based paint. Spackling may be painted immediately upon drying with a quality latex paint.

CLEAN UP & STORAGE

Wash tools immediately after use with water. Dried product must be cut, scraped or sanded away. Be sure container lid/cap is closed and tightly sealed. Store in a cool, dry place.

SAFETY

See product label and Safety Data Sheet (SDS) for health and safety information. You can request an SDS by visiting our website at dap.com or by calling 1-888-DAP-TIPS.

WARRANTY

Warranty Information:

If product fails to perform when used as directed within one year of date of purchase, call 1-888-DAP-TIPS, with your sales receipt and product container available, for replacement product or sales price refund. DAP will not be responsible for incidental or consequential damages.

DAP's sole liability is either to supply new product or refund the purchase price. This limited warranty excludes all other express or implied warranties, including the warranties of Merchantability or Fitness for a Particular Use or Purpose. DAP will in no event be liable for any Incidental or Consequential Damages. Some states do not allow limitations on how long implied warranties last nor exclusions or limitations of incidental or consequential damages so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.
