DAP® Liquid Cement Crack Filler

**PRODUCT DESCRIPTION**

DAP® Liquid Cement Crack Filler is an easy-to-use, ready mixed product for the repair of horizontal concrete cracks. Repairs are ready for traffic 30-45 minutes following application, when directions are properly followed. Liquid Cement is self-leveling and dries gray to match most existing concrete.

**NOTE:** Fills cracks up to ½” in width. For cracks greater than ½” in width, use DAP Ready-Mixed or Dry Mix Concrete Patch.

**SUGGESTED USES**

It is ideal for filling and repairing concrete and cement cracks.

**APPLICATION**

1. Do not use if temperature is below 45°F (7°C), or if rain is likely. Keep product from freezing. Always wear rubber gloves and eye protection.
2. Clean all foreign material from crack, Liquid Cement must be applied to a clean, dry and sound surface.
3. Shake Liquid Cement bottle prior to opening and before each use to ensure consistent mixture. Bottle nozzle should be snipped with scissors to initially open. (The product will flow faster if the bottle is set into hot water for 10 minutes prior to use in cooler temperature conditions).
4. Fill crack in ¼ inch layers allowing at least 24 hours between applications.
5. For very thin cracks, Liquid Cement may be “pressed” or troweled flat into and around crack.
6. Product may be painted with latex or oil-based paints
